

My trip to London

Write an email to a friend about your trip to London.

Hi there,

I arrived in London three days ago. It is a fantastic town with lots of things to see and do.

On the first day, we went on a bus tour in the centre of London and saw all the most famous sights of London. We crossed Tower Bridge which is one of the oldest bridges in town. I have read in my English book that it opens to let the ships pass, but I did not see it. Then we went to the Tower of London. It is not one tower but a big building with many towers. In the past, the Tower was a prison where many people died, but now it is a museum where you can see the Crown jewels.

After the visit to the museum, we took a boat trip on the river Thames. We got off at the London Eye which is a huge wheel, 135 metres high. The capsules are quite big, and about 12 people can go inside. We had an excellent view of Big Ben and streets of London from the top of the wheel.

Then we went to the London Dungeon. It is the coolest museum I have ever seen. We walked from one room to the other and met actors who showed scary things from the history of England. London Dungeon was a lot of fun.

I like London because there are many things to see and it's different from Vienna.

Tomorrow we are going to do some shopping in Oxford Street.

See you soon.

Jessica
