

Write a **film review** - "Harry Potter and the Philosopher's Stone"

Want to be a wizard?

"Harry Potter and the Philosopher's Stone" starring Daniel Radcliffe, Emma Watson and Rupert Grint in the lead roles, is a fantasy film released in 2001. The plot is based on the novel by J.K. Rowling published in 1997. It was directed by Chris Columbus. The story is set at Hogwarts School of Witchcraft and Wizardry and describes the adventures of a young wizard-to-be.

One day, 11-year-old Harry who lives with his aunt and uncle, receives a letter of invitation to Hogwarts Schol. His big adventure begins. He will soon not only learn the truth about his family but also how to perform magic. He becomes close friends with Hermione and Ron, and they all find out about the philosopher's stone which can turn metal into gold and give immortality. But it is not easy to get the stone which is guarded by a giant three-headed dog named Fluffy. Harry, Ron and Hermione have to face many challenges and overcome obstacles.

If you enjoy fantasy films, you will find it highly entertaining. It is packed with action, full of suspense and witty dialogue. As it is based on the book, the plot is somewhat predictable but with its stunning special effects, you can see all the magic tricks. Daniel Radcliffe is very convincing as a young wizard. And the costumes are wonderful. The film was even nominated for the Best Costume award.

I would recommend the film to both children and parents. It is definitely a must-see for all Harry Potter fans. The film is worth every cent. You will not be disappointed. Do yourself a favour and watch the film.
